SUMMARY

Microsoft Power Platform Developer specializing in building scalable business applications using **Power Apps, Power Automate, SharePoint** and **Dataverse**, with hands-on experience in **web development** for integration and custom UI components. Experienced in delivering Insurance, Banking, and Integration projects, with a strong focus on building scalable applications, automating business processes, and delivering user-centric solutions. Strong ability to translate business requirements into technical implementations, with a focus on performance, efficiency, and security.

WORK EXPERIENCE

Power Apps Developer (BIM Group of Companies) **Jun 2025 - Present**

- Designed and developed business applications using **Power Apps, Power Automate, SharePoint,** and **Dataverse**, delivering scalable and user-friendly solutions.
- Partnered with stakeholders to gather requirements and translate business needs into **optimized apps, automated workflows,** and **integrated APIs**.
- Architected and implemented data storage solutions using **SharePoint** and **Dataverse**, ensuring **scalable, secure,** and **maintainable application designs**.
- Delivered multiple end-to-end Power Platform solutions independently, covering **requirement analysis, implementation, testing,** and **deployment**.
- Integrated **third-party APIs** and **data services** to extend app functionality using **Power Automate flows** and **Connectors (Standard** and **Custom).**
- Developed a custom PDF view using **HTML** and **CSS**, and implemented **SharePoint** and **API integration** flows in Power Automate to use data in JSON type coming from XML data source.
- Provided **ongoing application support, issue resolution,** and **enhancements** for live projects, ensuring **system stability** and **user satisfaction**.

Junior CRM Developer (BIM Group of Companies) **Aug 2024 - Jan 2025**

- Developed and optimized Power Automate flows to **streamline business operations** and **reduce manual workload.**
- Troubleshot and enhanced Model-Driven Apps and CRM features by **resolving issues** and **optimizing features.**
- Designed, built, and maintained **standard** and **custom CRM features** using **Power Apps, Power Automate,** and **Dataverse**.
- Integrated **third-party APIs** and **Microsoft services (Teams)** into CRM solutions to extend system capabilities.
- **Optimized process flows** for an Insurance CRM project handling **500+ daily transactions** by improving system performance.
- Developed **custom UI components** and extended CRM functionalities using **JavaScript** and **Tailwind CSS,** resulting improved usability and user experience.

Power Platform Intern (BIM Group of Companies) **May 2024 - Jul 2024**

- Developed **an internal Expense Claim App** using **Power Apps, Power Automate,** and **SharePoint**.
- Built automated workflows with Power Automate to **streamline process delivery** and **approval process.**
- Collaborated with **cross-functional teams** including Power BI developers, Business Analysts, and Project Managers.
- Designed user-friendly interfaces to improve user experience and app usability.
- Supported data storage and integration through **SharePoint Lists**.
- Participated in **testing** and **troubleshooting** to ensure app functionality and performance.
- Contributed to the UI development of an external insurance CRM project using **JavaScript** and **Tailwind CSS**.

EDUCATION

Bachelor of Computer Science **Dec 2016 - Nov 2024**

University of Information Technology

- Specialization in **High Performance Computing**.
- Designed and developed various projects using programming languages such as **JavaScript**, **Java**, **PHP**, **Python**, and frameworks such as **jQuery**, **React**, **Vue.js**, **Node.js**, **Laravel**, and databases such as **MySQL** and **NoSQL**.
- **CGPA -** 3.53 / 4

SKILLS

- **Technical Skills**
  - Microsoft Power Platform, Power Apps (Canvas & Model-Driven), Power Automate, SharePoint, Dataverse, Copilot Studio, API, Azure, Microsoft 365 Integration, HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, TypeScript, React, Node.js, PHP, Laravel, MySQL, NoSQL, Git, GitHub
- **Certificates**
  - Microsoft Applied Skills: Create and manage canvas apps with Power Apps
  - Microsoft Applied Skills: Create and manage automated processes by using Power Automate
  - Microsoft Applied Skills: Create and manage model-driven apps with Power Apps and Dataverse
  - Microsoft Applied Skills: Create agents in Microsoft Copilot Studio
  - Microsoft Applied Skills: Build an agent in Microsoft Copilot Studio
  - Create Model-driven Power App for Rental Company - **Coursera**
  - Create Power App for Adding Records to SharePoint List - **Coursera**
  - Fundamental Information Technology Engineer Examination - **ITPEC & MCF**
  - Legacy JavaScript Algorithms and Data Structures **- freeCodeCamp**
  - Foundational C# with Microsoft **- freeCodeCamp**
  - Web Application Project using PHP - **UIT & Fujitsu Limited**
